

Fundación Moeve launches 2025 Social Value Awards to combat social vulnerability

- **The foundation will allocate up to 375,000 euros to promote projects that improve the well-being of people in situations of social vulnerability**
- **Since its creation in 2005, more than 5.25 million euros have been granted to 512 projects, directly benefiting more than 100,000 people**
- **Projects that demonstrate sustainability and promote ecological transition among the communities they serve will be positively valued, in line with Fundación Moeve's commitment to a fair ecological transition**

Fundación Moeve today launches the 21st edition of its Social Value Awards, an initiative designed to drive projects that improve the well-being of individuals facing social vulnerability in the regions where Moeve operates. Interested entities may submit their projects from September 2 to 19 through the [website of fundación Moeve](#).

In this edition, the foundation will allocate up to 375,000 euros to social projects in the regions where the awards are held (Campo de Gibraltar, Canary Islands, Madrid region, Huelva province, and Portugal), where Moeve and its foundation maintain strong ties and significant community engagement.

Each region will have a budget of up to 75,000 euros, which will be distributed among three winning projects. Each initiative may receive up to 25,000 euros to support its development. The selected projects will be chosen by local juries composed of institutional representatives involved in social action. Additionally, Moeve employees will act as solidarity sponsors for the participating initiatives.

Teresa Mañueco, General Manager of fundación Moeve, emphasized: *"With these awards, we aim to support entities that have an in-depth understanding of their communities' needs and promote their projects. At fundación Moeve, we strongly believe in the transformative power of social action and the importance of creating impact, cohesion, and opportunities where they are needed most, especially in the context of ecological transition."*

Likewise, in line with fundación Moeve's commitment to a fair ecological transition, projects that incorporate sustainability criteria and promote ecological transition among their target groups will be positively valued, though this will not be a requirement.

Since the launch of the Social Value Awards in 2005, 512 projects have been supported, directly benefiting more than 105,000 people, with over 5.25 million euros contributed by the foundation.

Fundación Moeve is a non-profit, general interest organization, whose goal is to carry out initiatives to address the main challenges of society in the areas where its founder, Moeve, conducts its activities. Fundación Moeve's scopes of action are people, biodiversity, and social innovation.
